

INTEGRATED ACCESSIBILITY STANDARDS

The Integrated Accessibility Standards which include: Information and Communications Standard, Employment Standard and the Transportation Standard came into effect on July 1, 2011. Municipalities are required to have emergency procedures and plans produced in accessible formats and ensure that an employee with a disability has an individualized workplace emergency response plan. Websites must be in compliance and meet specified content and requirements.

The Municipality of Northern Bruce Peninsula has produced the following pamphlets in regards to emergency management:

1. Hearing
2. Mobility
3. Non-Visible Disabilities
4. Seniors with Special Needs
5. Service Animals & Support Persons
6. Travel Considerations
7. Vision

Please contact the Accessibility Coordinator, Cathy Addison to obtain a copy of these pamphlets or further information is available at www.ontario.ca/emo for the Emergency Preparedness Guide for People with Disabilities/Special Needs.
