## Flying Lanterns Are Not Permitted

Fire Chief Wilf Barnes would like to inform residents and businesses that Flying Lanterns **are not permitted** within the Municipality of Northern Bruce Peninsula. These products resemble a small paper hot-air balloon, fuelled by an open flame. When released, the hot air produced by the fuel source can lift the lantern to extreme heights and allows it to drift for long distances until the fuel is depleted. These lanterns are often released in large numbers to generate an impressive visual effect. Due to their uncontrolled and unpredictable flight path, these products could land on trees, building rooftops, or other combustible properties while still ignited and cause fires.
